## PROFESSIONAL EXPERIENCE

### Head of Backend (Senior Laravel Developer) — Idealween Tech

Apr 2025 – Present

- Own backend architecture for two live products: Isopoll, an AI-integrated market-research platform, and Iransampler, serving 98,700+ customers with 827,000+ surveys completed to date
- Leading and mentoring the backend engineering team; running technical interviews and hiring
- Shaping system architecture: service abstraction, database design, and DevOps/CI-CD strategy

### Technical Lead | Backend Development — Gandom

Jan 2023 – Apr 2025

- Led backend technical direction for a Canadian-Iranian company's international client projects
- Scaled the SMS platform's throughput to send 500,000 messages in under 2 minutes (up from a 100,000/day baseline), with Twilio/Bandwidth integration and GraphQL-based VoIP systems
- Implemented advanced queue management and scheduling; integrated PayPal, FedEx, and UPS APIs into client platforms

### Backend Developer | Laravel & Vue.js Specialist — Maksab

Jan 2022 – Jan 2023

- Built scalable Laravel 8/9 backend systems and Vue.js admin panels for marketplace platforms in the Palestinian market
- Designed RESTful APIs and implemented caching that significantly improved load times in low-connectivity regions

### PHP Developer | Financial Plugin Developer — Sepidar System

Jan 2021 – Jan 2022

- Built and maintained a WooCommerce–Sepidar accounting synchronization plugin, handling high-volume financial transaction sync in real time

### Full-Stack Developer (Laravel & Livewire) — AGTeam

Jan 2019 – Jan 2021

- Delivered Laravel 6/7 and Livewire-based e-commerce platforms, corporate websites, and custom business applications end-to-end

---

## EDUCATION

B.Sc. Software Engineering — Islamic Azad University

2019 – 2023
